DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species I., Figs. 1 and 2;

Species II., Fig. 3;

Species III., Fig. 4.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, at least claim 1 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

2. During a telephone conversation with Mark Ekse on June 16, 2004 a provisional election was made without traverse to prosecute the invention of Species I., claims 1-6 and 11-13.

Affirmation of this election must be made by applicant in replying to this Office action. Claims 7-10 and 14-20 withdrawn from further consideration by the examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

Claim Objections

3. Claims 2, 3 and 11-13 are objected to because of the following informalities: In claim 2, line 1, and claim 11, line 13, it appears that "a intermediate" should be "an intermediate." In claim 2, line 5, and claim 11, line 16, it appears that "aids" should be "aiding". Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1, 2 and 4-6 are rejected under 35 U.S.C. 102(b) as being anticipated by Kane et al.

Kane discloses a document displaying system having a support assembly with a backing member 12; a frame assembly 10 couplable to the support assembly; a transparent cover member

Art Unit: 3611

16 couplable to the frame assembly 10; and pair of magnetic coupling members 26 securing the transparent cover to the support assembly.

Regarding claim 2, Kane discloses an intermediate board member 22.

Regarding claim 4, see Fig. 7. Part 10a forms an opaque portion extending around a perimeter edge of the transparent cover member.

Regarding claim 5, see Fig. 11.

Regarding claim 6, see Fig. 7. Part 14b comprises a side portion, and part 14a forms a back portion coupled to the side portion.

Allowable Subject Matter

6. Claim 3 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 11-13 would be allowable if rewritten or amended to overcome the objection to claim 11 set forth in this Office action. Further, when claim 11 is put in condition for allowance, dependent claims 14-17, drawn to a non-elected species will be rejoined.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
